Hagerty said "there isn't a thing to it" in commenting on a report that the President would disclose here late Friday, after the stock markets close for the weekend, whether he will seek another term. A newsman had told the press secretary such a report was circulating in this area.

The general impression among Washington reporters has been that he would wait until he gets back to the capital to announce his decision. Hagerty's comment today appeared to make that just about certain.

But he declined to shed any ight on just when the President will answer the big question. When we have any announcements to make , we will make them." Hagerty replied when

it a deductible expense? Yes, up to the value of the loss, so far as that value is not made good by insurance. The loss is the value of the property damaged just before the casualty, less the property's value just after the casualty -or-the "adjusted value" of the property (usually what the property cost you, plus permanent improvements on it, and less any depreciation for which you have claimed a deduction, or less previous unreimbursed casualty losses). You can deduct whichever of these two value bases is the least. The Revenue Service has issued a special booklet on "Losses from Hurricanes, Floods and Disasters" as they affect your federal income

4. (Earnings of a minor child) My minor son worked for a grocer last year. The grocer paid my son's earnings \$200 to me. Must I include this in my income for 1955?

No. Although it was paid to you, it is your child's income. If he earned as much as \$600 the child's income might be taxable, which would mean he would have to file an income tax return.

5. (Earnings of an adult child). My son, 22, earned \$650 as a waiter at the college he attended in 1955. Can I still claim him as an ex-

of sickness, the first week's pay is not exempt unless you were hospitalized at least one day during your illness.

#### Industrial Development Of Tremendous Potential Here Needs Planning Commission

something this newspaper has long advocated for the two Stroudsburgs, Stroud Township and Delaware Water Gap is the vital key to industrial expansion of area which, in the words of an expert, A. C. Hopkins, manager of industrial development for Lackawanna Railroad, "has a tremendous

Without going into Mr. Hopkins' reasons for this "potential" and what one small industry employing 200 persons will mean to all phases of life here-all of which is carried in the news columns of this issue-we'd like to turn to the basic zoning and planning importance which he said is the best way to take advantage of that "tremendous potential." Here are his recommendations:

1. The Chamber of Commerce should devote a substantial part of time and resources on Industrial Development.

2. Carefully zone the area, including the boroughs and adjacent areas, such as Stroud Township and Del. Water Gap so that housing will not encroach upon industrial sites any more than industry will encroach or the industrial sites.

3. Plan utility and highway expansion

The importance of zoning and planning, with an eye toward sewers, water and gas line being extended to serve the future industrial sites and so that highways open up new industrial sites rather than cut up ex-

4. Be ready with the facts-labor availability and many other facts.

5. Sell the area by sending factual brochures with an invitation to industrial leaders to come and "see for themselves."

It's so obvious that Mr. Hopkins has placed emphasis on planning-the type of planning that comes when communities first set up their own planning commission and then name delegates to a regional planning commission such as we have advocated in the

East Stroudsburg has its commission. That group has already done many vital and important things for its own community. But it is ineffectual without collaboration from similar commissions representing Stroudsburg, Water Gap and Stroud Township.

There can be no regional planning commission without a local commission. Too much time has elapsed already. Let's get these local commissions set now and our regional commission-the basic need now-will

#### More Effort Must Be Extended To See That Aged Continue As Useful Productive Citizens

The number of retired people from other states who live in Florida and Southern California has given rise to a belief that as a rule elderly people move to warmer climates when they cease working.

Actually the reverse is true, a study by the Twentieth Century Fund reveals. The majority live out the rest of their lives in their home communities.

The proportion of elderly people in the populations of Florida and California is little different from that in the nation as a whole.

That proportion is highest, incidentally, in Upper New England and in the four states lying just to the west of Illinois. It is lowest in the Carolinas, Arizona and New Mexico.

It is true that many rural areas seem to be populated almost entirely by older people, but that is not the case in the towns and cities even in the same states. Young people leave the farms and small towns, while their elders stay where they are.

So it appears that the problem of the elderly is a national one, and always will be. Thus every state and every community should give thought to programs that will enable more of the aged to find jobs and otherwise continue to be useful citizens.

The Federal Government must do its part too, as it has in liberalizing Social Security at school benefits to make it easier for recipients to

Thanks largely to medical advancements, the number of those who live to advanced ages is increasing much faster than the population as a whole.

The rest of the population will have to support these people, or make it possible for them to support themselves.

He stated flatly: That General Nathan Twining did not agree to the Air Force's new budget, as it has been officially o id he did.

There have been a number of 'sensational" scientific breakthroughs in the guided missiles and propulsion fields, but measures are draggnig in taking advantage of them.

When Representative Errett Scrivner (R-Kans) challenged Garner concerning disagreement in the Joint Chiefs of Staff over the defense budget, he pulled a document from a briefcase and tossed it on the table.

"When you gentlemen read this paper," said Gardner, "I am sure you will agree with me that General Twining did not agree to the amount of funds alloted to the Air Force in President Eisenhow- last month. Instead, the Air Force got \$16,-500,000,000 for the fiscal year starting July 1.

In disclosing these details, Gardner stressed that he resigned as Assistant Air Force Secretary because of differences with Defense Secretary Wilson over policy and "not personalities." "I like Secretary Wilson and

Building Report Issued

All types of building construction in the state suffered the usual seasonal slump during De-

low monthly figure for 1955, it is in line with the seasonal trend for this period of the year. The estimated value of December construction was 40.3 per cent below November and 8.1 per cent below the dollar volume for the same month last year. A comparison on a permit-issuingbasis shows that December permits issued were 37.3 per cent below last month and 7.2 per cent below that of last December. No particular type of construction was responsible for the sharp drop in activity in December as

against November. The seasonal let-up this month affected all categories of construction quite evenly. The seasonal pattern for the post-war period indicates that in the month of December construction activity reaches the lowest level for the year and continues on into Jan-

nary of next year Residential Down New Residential Building-The value of new dwellings for December was estimated at \$15,712,-966 which was 43.1 per cent under the volume in November. The number of family units to be provided dropped 45.4 per cent since construction was 12.4 per cent lower and the number of family

units, 18.7 per cent lower. No

large housing project was report-

ed during the month. New Non-Residential Building -The volume of construction costs for new commercial, industrial and public buildings in December amounted to \$14,354,351, which was under the \$26,487,038 figure of November by 45.8 per cent. Permits issued during the month for this type of construction numbered 341 as compared to 604 in the month previous, off 43.5 per cent. Compared with December a year ago, permits issued dropped 2.6 per cent and estimated construction costs amounted to 14.0 per cent less.

## **Bell's \$250 million annual expenditure means** a lot to Pennsylvania employment and prosperity

The 37,000 telephone company employees and their families will buy and furnish plenty of homes during 1956.

And the telephone company itself is launching a 108-million-dollar construction program this year, for various parts of the state.

All this adds up to good news for those who make and sell home furnishings and building materials of all types - and employment for thousands of paperhangers, painters, bricklayers, carpenters, plumbers, electricians and

other people in the hundreds of communities we serve all over the state.

The telephone company, telephone employees, and Western Electric-Bell manufacturing unittogether will spend over \$250 million dollars in Pennsylvania by the end of this year.

Any way you look at it, the successful operation of the telephone business means a great deal to the steady employment and prosperity of a great many

Pennsylvanians, both in and out of the telephone industry.

COFFEE-KLATCH? No! WASHDAY "WORK"? Yes!—Indeed: For the modern all-electric washday way relieves the home-maker from lonely hours elbow-deep in wet cloths, with only a wringer, a washbasket and misery for company. All that is needed to escape the old-fashioned role of lonely washday drudge is an automatic electric dryer to go with the automatic electric washer. Its ease of operation leaves time for visiting, for relaxing, for the many other activities in a homemaker's day.—Adv.

HARD WORK, DIRTY WORK is mighty tough on clothes, and mighty tough on the home-maker who has to keep them clean. But, with an electric laundry dryer, the answer's almost ridiculously easy. Just pop soiled laundry in the automatic electric washer. When the washer automatically turns itself off you take a minute to shift the laundry to the dryer. While you eat dinner, watch television, sleep or do whatever you please, clothes are made clean, fresh

#### Attendance Record

The congregation broke all records for the Lenten observance of Holy Communion at St. John's on Sunday, More than four hundred members received the sacrament, which was administered by the pastor, Rev. Wohlsen, assisted by Rev. R. W. Goucker, of Philadelphia. Six new members were received into membership at the morning service.

At 3 p.m. five children were received into baptized membership of the congregation through the Sacrament of Baptism performed by the pastor. The following were those received: James Murray Pedersen, son of Mr. and Mrs. Carl Pedersen, with mother as sponsor; Robert Alexander Starner, Linda Lou Starner, Catherine Ella Starner, children of Mr. and Mrs. Willard Starner, with parents as sponsors, and William John Rutherford, infant son of Mr. and Mrs. William George Rutherford, with parents as sponsors.

#### **Bridge Lessons** Begin Feb. 29

THE YMCA bridge group will begin lessons Wednesday, Feb. 29, at 7:30 p.m. The group will not meet on Wednesday, Feb. 22, due to the instructor's absence. However, the classes will be held every Wednesday night thereafter through the beginning of May. All people desiring to join the classes are asked to be at the first meeting.

The class will be under the direction of Kenneth Petry, who has had much experience playing in professional bridge tournaments. Duplicate boards will be employed in teaching contract bridge.

Following the service members of the Senior Choir will meet for rehearsal. The Brotherhood will also meet after the service. The new officers request the attendance field, zone chairman; John F. DeSanto, club secretary; Andrew Inzerill, Tobyhanna club president.

# A DAILY RECORD WANT AD

Talks Business to Everybody . . . . and Is Heard

> If it's a salesman you want, you'll look far before you'll find a better one than a Daily Record Want Ad.

Small as it is, it packs a mighty wallop, and gets in places where a two-legged salesman can't get the tip of his shoe. There are no barriers a Want Ad can't hurdle. It encounters no sales resistance because it's paid for by the advertiser and sought by the reader who buys The Record to know what's for sale and who has it for sale. It's Wanted.

A Record Want Ad is a tireless worker for any one willing to hire its services.

It is a guide to business opportunities, often a promoter of an enterprise. It sells real estate, unused commodities and has a voice in thoussands of transactions like no other medium of advertising.

It talks business to everybody, and is heard.

For the price you pay, a Record Want Ad is a force in selling you cannot afford to ignore. Better than 60,000 individual ads have been published in The Record during the past twelve months, and sixty thousand of anything is worth consideration.

So for things you want to buy or rent-or for any other need-read and use

Dingmans Ferry - Mr. and Mrs. Giles E. Irvine of The Dingman House with their sons, Perry and Geoffrey, and Mrs. Rose Irvine, spent last weekend in Washington, D. C. While there they visited all the usual tourist points of interest, had a ride on the Scnators' Subway, and spent several hours at the Smithsonian Institute where the boys were interested in the old trains, automobiles, and planes, and the ladles enjoyed the ga'lery where gowns from all the First Ladies of the country are on display in contemporary settings.

They also visited the National Archives Building where they viewed the Declaration of Independence and the Bill of Rights in the specially sealed shrine cases which protect them from deterioration. In the National Archives Building, as well as in the Library of Congress, there are also on display many origina! documents in the handwriting of George Washington, Thomas Jefferson, Benjamin Franklin and Abraham Lincoln. Appropriately, the Irvines' last point of call was decorated with many floral tri- Church butes in honor of his birthday. Mr. and Mrs. Irvine and family also visited their oldest son, Bruce, who is a naval recruit in

Harry Anton, principal of the school spoke on Founder's Day itself, and the advancement in PTA work, and its theme, "better homes, better schools, better communities for a peaceful society." He pointed out that PTA groups working on the local and state level can accomplish much such as the Law 445 passed with PTA suggestion and support which requires cars to stop for parked school buses in all areas.

A square dance on March 16 was p'anned to raise funds to purchase playground equipment for the school. Mrs. Mabel Metzgar, general chairman, named the following chairmen: music, Mrs. Vernon Pennell; refreshments, Mrs. Roland Fritz; grab bag, Mrs. cle leaders. Verna Weidman. The committees will meet to make final arrange-

holiday decorations. Initiation of The PTA also planned to order candidates will be held February magazines, "Humpty Dumpty" 23. and "Children's Digest" for the school library as an additional project.

Guest speaker, Mrs. Helen E. Booth, supervisor of the first grade at the Laboratory School at East Stroudsburg State Teachers College, was introduced by Mrs. Mabel Metzgar program chairman. Her topic was "Developing the Child's Personality." Two films demonstrated how parents can help the child develop his personality, to project himself and to live with others.

In summary, she said, "One of the most important aims of both home and school is to help the individual adjust for social liv-

ing." A free discussion followed. Mrs. Addie Weidman's room won the attendance banner. Two new members joined at the meeting. Refreshments were served from a table decorated for Valentine's Day by Mrs. William Pfeifer and Mrs. Roland Fritz.

#### Americanism Program Given On Lincoln's Birthday

Dingman's Ferry - The meetng of the Dingman's Ferry Unit \$851 of the American Legion Auxiliary fell on Abe Lincoln's birthday. After the regular business was disposed of, the unit president, Mrs. Marie Hoffman outlined a five-point program embracing all phases of Americanism, which Auxiliary members might use as a guide in their daily living and community work. This was most interesting. Mrs. Hoffman is Americanism Chairman of the Wayne-Pike County Council for this year.

During the social hour an amusing patriotic quiz was enjoyed by both the Auxiliary and the American Legion members, which covered commonly known historical events and flag etiquet-

Table decorations were in the Lincoln Day theme and while there was not a big turn-out of members, a most informative and enjoyable evening was had by those who attended.

I assume it's been an important part of Sears ever since Sears store became affiliated with Wyckoff's back in 1933. But I do recall that years ago it did not dominate the store - it was merely one of the many departments there. You could have walked through the Sears basement and not noticed the order desk unless you had business to transact there. But try to ignore it now! You just couldn't - because there it is in the very center of the store, staffed not by one or two girls but FOUR:-Cora Bisbing, manager; Ruth Werkheiser, Lo-

East Stroudsburg just wasn't on its feed against Nazareth. The Cavallers are said to have been guilty of many wild passes and violations such as walking and requiring too much time to move out of the "key." The Cavaliers also reportedly had trouble offensively for the second straight game. They couldn't come close to matching the brilliant shooting percentage they displayed against Fountain Hill the previous Friday. The Cavaliers reportedly appeared strong enough defensively, but just couldn't muster enough of an offensive threat to be a contender.

The reason three regular members of the Trenton basketball team sat on the bench throughout Saturday's contest with East Stroudsburg State Teachers College is that they are at odds with their coach, and have been for the past several games. ESSTC's team work was at peak form for the season against Trenton. The Warriors were particularly strong during the first 10 minutes, but even the reserves exhibited a degree of polish not noticed previously during the present campaign.

Thursday Eve. Feb. 23rd.

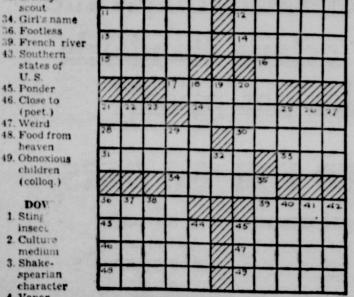

7 p.m. to 9 p.m.

Fire Co. Members Will Call On A Door To Door Canvass.

Registered U. S. Patent Office.

Here is a pleasant little game that will give you a message every day. It is a numerical puzzle designed to spell out your future. Count the letters in your first name. If the number of letters is 6 or more, subtract 4. If the number is less than 6, add 3. The result is your keynumber. Start at the upper left-hand corner of the rectangle and check every one of your key numbers, left to right. Then read the message the letters under the checked figures give you.

Yosko said "I don't see why anybody will refuse to testify if he has nothing to hide."

DuMont told newsmen he planned to ask the New Jersey egislature when it reconvenes on March 12 to investigate "on its own" the commission's activities and finances. He added that the New Jersey legislature will "keep a close watch" on developments uncovered in Pennsylvania. Yosko said public hearings probably will be held starting next week "and we will try to hold them in places most convenient to witnesses." Cohen, commenting on the luxurious facilities of the building with its separate recreational

kitchen and bathroom facilities for five different classes of commission personnel," said he was "very pleased with the progress of today's investigation. Study All Records

# You live better...

... because of advertising

Sure you live better-and you don't have to look far for evidence. You have a kitchen full of appliances that your Grandmother never dreamed of! You can eat fresh frozen strawberries in the middle of winter, and cool your bedroom with air conditioning during the summer heat. The power steering on your car, that 21-inch television set, even your nylon stretch socks-they are all new within the past few years.

What has advertising to do with it? Plenty. The new products you enjoy would never be made if they couldn't be sold. That's where advertising in this newspaper comes in-helping local businesses sell all manner of things. Then manufacturers can make newer and better products to raise your standard of living still higher. It's a never-ending process of improvement, and you are always the winner. Advertising Benefits YOU!
